Congressional Summary.

Tuesday, May 20.—SENATE.—The legislative, executive and judicial appropriation bill again came up and was debated by Messrs. White, Horner, Jackson, Windom, Conkling, Edmunds and Jones. A motion to strike out clauses repealing the statutes relative to the test case of the House was adopted. A motion to strike out the clause repealing the statute which punishes interference with or obstruction of deputy marshals or supervisors was also lost. The bill was then read a third time and passed—Yeas 57, Nays 27. The House then passed a bill to amend the act relating to the silver bill was the principal subject under consideration, and after a great deal of filibustering the house adjourned without finally disposing of the bill.

Ex-Gov. HOFFMAN, of New York, summarizes the veto messages in this terse and pointed manner:

"I won't sign any bill that prevents me or my successors from using the army at elections if we want to."

THE new board of health seems to mean business. Judging from the proceedings of the meeting held yesterday the city will be placed in first-class sanitary condition without delay. It is to be hoped the members will not allow their zeal to die out.

WILL HERBERT KERNAN, pronounces the letter in which he proposes to a leading republican to "give 'em hell according to the extent of our circulation" an infamous forgery. It may be so, but the letter bore strong intrinsic evidences of genuineness.

GOULD AND VANDERBILT.

The growth of monopolies and corporations in this country has been so rapid as to cause grave apprehensions that they would eventually become stronger than the government itself. These combinations of capital have frequently shown their power in the politics of the country in a way that has alarmed the patriotic thinkers of the land for the perpetuity of free government. In Pennsylvania the legislatures have for many years past been the servile tools of TOM SCOTT and his railroad companies, and the two United States senators from that state—CAMERON and WALLACE—are notoriously committed to the service of that corporation. In New York the legislatures have been alternately in the service of the Erie and the Central interest. The entire politics and business of the Pacific slope is controlled by the Central Pacific Company, the most aggressive, powerful, insolent and corrupt corporation in this country. In congress the corporations carried things with a high hand for years, until the democrats got control of that body and Judge THURMAN's Pacific Railroad bill was passed after a desperate struggle with the lobby. The supreme court, by a bare majority of one, has just declared that law constitutional.

These corporations practically represent single individuals. VANDERBILT controls the New York Central, Hudson River, Harlem, Lake Shore, Canada Southern and other roads as completely as if he actually owned every foot of them. TOM SCOTT is autocrat of the Pennsylvania system. JAY GOULD, the greatest of them all in point of power, controls a line of road extending, with a single break of sixty miles, (which will soon be filled up) from the Atlantic to the Pacific Ocean. JOHN W. GARRETT is the Baltimore and Ohio Railroad.

Now as the half dozen railroad monarchs of the country have gobbled up all the roads which amount to anything, it is natural that the process of consolidation should go on. It is not surprising, therefore, to hear well

defined rumors to the effect that JAY GOULD and WILLIAM H. VANDERBILT are endeavoring to form a grand combination which has for its object the control of the trade and commerce of the continent. A union between these two men would place the commerce and the industry of the country practically at their mercy. The danger is sufficiently menacing to excite much attention all over the land. GOULD and VANDERBILT combined would wield a power that would be dangerous not only to the business of the country, but to the perpetuity of the government itself. The Chicago Tribune, in an able article discussing the proposed union, says:

There is one hope left that the VANDERBILT-GOULD combination will not have their ambition gratified to become railroad directors of the country, and that will be through the interference of the national congress. The fact that the railroads of the country should all be controlled by a few eastern magnates, is causing much fear and anxiety, and there is a general feeling among the public that no two men in the country should be allowed to wield such immense power and patronage as would be wielded by GOULD and VANDERBILT if the above mentioned schemes are carried out.

Greatly as such an issue is to be deprecated, it may become necessary for the people, ere long, through the national congress, to draw a line beyond which they will say to the corporations "You shall not go."

ENGLAND AND AMERICA AS MANUFACTURING COMPETITORS.

We make some extracts from an article on "England and America as Manufacturing Competitors" written by an English gentleman, Mr. JAMES HENDERSON, and published in a late British review. The purpose of the writer is to demonstrate that British manufacturers have no occasion to be alarmed at American competition. He enumerates many advantages that the British have over the Americans, but that which he seems to appreciate most is the legislative restrictions which the United States government has put upon trade. He concedes that so long as our policy of protection is adhered to there will be no market here for English manufacturers, but he argues that in reserving our home market to ourselves we surrender all chances of trading in the markets of the balance of the world. He is writing in England from an English standpoint to Englishmen. He says:

There is probably no question in which greater interest is felt at the present time in the several centers of manufacturing industry than that of foreign competition. In the United States, for example, are very frequently pointed to as the quarter from which the most serious and dangerous rivalry is to be anticipated. I saw nothing in the United States which ought to cause us serious alarm, but much, on the other hand, which would lead to the conclusion that the day is yet far distant when the products of our foundries and our forges, of our spindles and our looms, will be superseded in the open market by articles of the same class produced in the United States. It is not to be supposed for a moment that I despise American competition. I can conceive of a condition of things, both here and there, which would cause it to assume very serious proportions, but this condition I cannot regard as likely to be realized for a long period of time.

North America possesses such unbounded natural wealth and resources, that it would indeed be rash to place a limit upon her capabilities in the remote future, but a careful consideration of her present position discloses so many difficulties and restrictions upon the development of these resources as to point to the conclusion that generations must elapse ere her people can hope to realize the full advantage of them. There is no country in the world in which the evil influence of unsound restrictive commercial legislation can be so clearly traced as in the United States; and, paradoxical as the statement may at first appear to be, the result of my observations in the manufacturing districts on the other side of the Atlantic went to convince me that the more absolute the system of protection levied upon imports into the United States, the more thoroughly are her manufacturers disqualified from competing successfully with those of Great Britain.

It is the case that, by prohibitive duties on British manufactures, the people of New England have been forced to turn from their own markets; but, practically, the custom house cordon which the Americans have established is like the Chinese wall—it debars the introduction of foreign manufactures, it is true, but it is equally as effective in preventing the exportation of their own. Were the people of the United States to throw open their ports to-morrow, I am perfectly satisfied that in the course of a short time their competition in certain markets and in certain classes of goods would be much more severely felt than it is now. The fact, that so long as the United States adhere to a strictly protective commercial policy we are safe. Our manufacturers may confidently rely upon it that they are not likely to be superseded in an open market so long as American industry is shackled by protection so effectually as it is now.

Pent up behind the rampart which their policy of protection has created, they—the American manufacturers—have grown weary of the exhausting process of feeding on each other, and are making the most desperate efforts to gain a foothold in some of the open and independent markets of the world. Hence it is that we hear so much at the present time of foreign competition. But wherever they turn they are compelled to rely on British assistance. Beyond their own coasts their commercial marine has practically ceased to exist. The manufacturers of New England have been for several years making a most earnest effort to obtain a share of the South American trade, but the difficulties are almost insurmountable. Nobody dreams now of sending raw produce which is in general demand, anywhere else than to Great Britain. This country has, through the foresight of our great free trade statesmen, become the em-

porium of the whole world, and the result is that our manufacturers can outstrip all competitors in obtaining a ready access to the most distant markets.

STATE MEDICAL SOCIETY.

The Twenty-Ninth Annual Convention of the Regulars—Reports of Officers—Appointment of Committees—Papers.

(Indianapolis News, 20th.) The twenty-ninth annual session of the Indiana Medical Society was called to order this morning at 10 o'clock, by Vice President Ben Newland. Roll call showed nearly 200 members present.

Vice President Newland announced the following committee on credentials: Dr. W. H. Bell, of Cass county; Dr. F. W. Bran, Knox county; Dr. R. N. Todd, Marion county; Dr. Gregg, Allen county, and Dr. Ritter, Orange county. Dr. Elder, chairman of the committee of arrangements, reported expenses incurred \$46.65. Report accepted and money refunded. The secretary made his annual report, which was referred to two special committees for consideration. Drs. Hobbs and Hibberd were appointed chairmen of the committees, with power to fill the other places. Dr. I. C. Walker, treasurer, reported receipts of \$1,007.81; expenditures of \$667.35, leaving a balance on hand of \$340.46. Referred to the committee on finance.

Dr. Maxwell, chairman of committee on publications, reported 1,000 copies of the proceedings and 500 copies of the president's message had been published at a cost of \$469. Accepted. The following committee on ethics was announced: Drs. C. N. Fitch, Wilson Hobbs, E. D. Laughlin, W. S. F. Carnett and H. A. Smith. Dr. J. A. Sutcliffe read a paper on "Perineal section for stricture of the urethra." Dr. Wiess read a series of resolutions looking to the adoption of the metric system of weights and measurements by the state society. Referred. Dr. Haughton read a paper entitled "A fracture of the fifth cervical vertebra—case and how it was treated." Adjourned until 2 o'clock this afternoon.

Water Works.

It is important that the city council act intelligently and legally in the matter of so much importance as the construction of water works in our city, a project that will involve the city in an additional indebtedness of at least seven hundred thousand dollars, if the city construct the works. Let the city council pass an ordinance for the construction of water works, and then, upon a petition signed by the required number of freeholders, submit the question to a vote, at a special election, ordered by the council.

Suppose.

Suppose Conkling should run against Tilden in New York for governor, and Sherman against Thurman in Ohio, and after they got through Grant should be nominated for president on one side, and Palmer or Davis on the other, wouldn't the successful candidate for governor have reason to howl?

The Mayor's Message.

Mayor Zollinger did not employ Mr. Taylor, of the News, to write his message. It was an original production, as all the mayor's messages are, and contains much sound sense and many valuable suggestions.

A WORD TO DOUBTERS.

There is a good old English maxim that teaches us to "believe every man honest until we know him to be a villain." American custom seems to have reversed this law and appears to make every man a villain until he has proved himself an honest man. As with people, so with things. Every article placed in our markets can lay claim to popular favor upon intrinsic merit and value alone. Continued popularity, therefore, is proof positive of intrinsic excellence. Dr. Price's Family Remedies are far more popular than ever before. The people have tested them and know them to be genuine remedies for the diseases they are recommended to cure. The Golden Medical Discovery and Purgative Pills are the best alternative, tonic, and cathartic remedies that can be used in chronic diseases of the stomach and liver. The world-wide popularity of the Favorite Prescription, as a never-failing remedy for female diseases, would have alone secured to its discoverer the fame he has so richly won. Dr. Sage's Catarrh Remedy, of which Dr. Price is also proprietor, is recommended by those who have tested its virtue as a safe and reliable remedy for catarrh in its worst forms.

Facts that We Know.

If you are suffering from a severe cough, cold, asthma, bronchitis, consumption, loss of voice, tickling in the throat, or any affection of the throat or lungs, we know that Dr. King's New Discovery will give you in immediate relief. We know of hundreds of cases it has completely cured, and that where all other medicines have failed. No other remedy can show one half as many permanent cures. Now to give you satisfactory proof that Dr. King's New Discovery will cure you of Asthma, Bronchitis, Consumption, severe Coughs and Cold Hoarseness, or any Throat or Lung disease, if you will call at Dreier & Bro.'s Drug Store we will give you a trial bottle free of cost, or a regular size for \$1.00.

YOU CAN BE HAPPY.

If you will stop all your extravagant and wrong notions in doctoring your self and family with expensive doctors or humbug cure-alls; that do harm always, and use only nature's simple remedies for all your ailments, you will be well, and happy, and save great expense. The greatest remedy for this, the great wise, and good will tell you, is Hop Bitters—believe

it. See "Proverbs" in another column.

CANT PLEACH GOOD.

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient or write a good article when he feels miserable and dull, with sluggish brain and unsteady nerves, and none should make the attempt in such a condition, when it can be so easily and cheaply removed by a little Hop Bitters. See "Truths" and "Proverbs," other column.

Chew Jackson's best sweet Navy Tobacco.

Cuticura

REMEDIES. Infinitely Cure All Skin and Scalp Diseases, Scaly Eruptions, Itchings and Irritations.

The testimonials of permanent cures of Skin and Scalp diseases which have been the torture of a lifetime, by the CUTICURA REMEDIES, are more wonderful than any ever performed before by any medical profession. CUTICURA RESOLVENT, a powerful Blood Purifier, is the only purifying agent which finds its way into the circulating fluid and thence through the oil and sweat glands to the surface of the skin, thus destroying the poisonous elements, with which these vessels have been daily charged. CUTICURA, the Great Skin Cure, applied externally, arrests all unnatural or morbid growths which cover the surface of the diseased glands and tubes with Sealy, Itching and Irritating humors, speedily it removes them, leaving the pores open, healthy, and free from diseased particles of matter. Thus internally and externally do these great bodies act in conjunction performing cures that have astonished the most noted physicians of the day.

SALT RHEUM FOR 3 YEARS

On the Head, Face, and the Great Part of the Body, Cured.

Messrs. WEEKS & POTTER: Gentlemen—I have been a great sufferer with Salt Rheum for 3 years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicine for the blood of different kinds and tried good physicians all of which did me no good, and came to me in my last year. A friend called my attention to an article in the London skin diseases, and I got a box of CUTICURA. The first application was a great relief and the third took the scales all off and I felt like a new man. I have used three 50-cent boxes and my skin is smooth and I consider myself entirely cured. Hoping this may be seen by some one afflicted as I have been if there is any I am very glad to hear of. I cheerfully recommend it to all persons afflicted with like diseases. Yours truly, B. W. LORD.

Agawanna, Mass., Sept. 9, 1878.

The CUTICURA SOAP should be used for cleansing all diseased surfaces, as most soaps are injurious to the skin.

LEPROSY.

A Modern Miracle, Astonishing Results from the Use of CUTICURA.

Messrs. WEEKS & POTTER: Gentlemen—We have a case of Leprosy in our poorhouse which is being cured by your CUTICURA. The county had employed all of our doctors and had sent to New York for advice, but to no purpose. The patient commenced using the CUTICURA and immediately began getting better.

He had been confined to his bed for two and one-half years. He had not had his feet out of bed for 18 months. Last week he dressed for the first time.

When he walked there would be at least one quarter of a mile of him.

This happened every day.

We think it is a wonderful cure. We do not say he is cured, but he is in a fair way to be cured. Yours truly, DUNNING BROTHERS, Druggists and Bookkeepers.

Alegan, Mich., Feb. 1879.

NOTE.—Messrs. Dunning Brothers are thoroughly reliable gentlemen, and were unknown to us prior to the receipt of this letter. We firmly believe this CUTICURA will permanently cure this very severe case of Leprosy as it has done many others.

Prepared by Weeks & Potter, Chemists and Druggists, 310 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes containing 100 doses, \$1.00. CUTICURA SOAP, small, 25 cents; large, 50 cents. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

COLLINS' VOLTAGE ELECTRIC PLASTER.

Rheumatism, Neuralgia, Weak Back, Stomach, and Bowels, Dyspepsia, Shooting Pains through the Loins and Back, Spasms of the Face, Head, Neck, and Limbs, Affections, relieved and cured when every other plaster, liniment, and ointment, electrical appliances fail.

BENSON'S CAPSINE POROUS PLASTER.

At no time in the history of medicine has there been a remedy which has met with greater approval and success than Benson's Capsine Plaster. Why they are preferred to all other porous plasters, is owing to their improved composition; they act instantaneously, cure speedily and effectually.

Physicians and the general public who acknowledge the great benefits derived from the use of the ordinary porous plasters, will find that their action is not so efficient, rapid, and continuous wear to effect.

MACHINE WORKS.

MANUFACTURERS OF STEAM ENGINES, BOILERS, SAW AND GRIST MILL MACHINERY.

(Filed and Tubular, all sizes)

Saw and Grist Mill Machinery.

MILL FURNISHING GOODS, ETC.

Sole agents for Johnson's Celebrated Steam Governors.

MASONIC TEMPLE & OPERA HOUSE

Sealed proposals will be received by the

Masonic Temple Association

of Fort Wayne, Ind.,

Until 10 o'clock p. m., Saturday, May 31st,

1879, for furnishing all materials and labor

required in the erection and construction

of a Masonic Temple and Opera House at

said city, according to plans and specifications

thereof, which can be seen at the

office of J. J. TULAN & SONS, Architects,

Fort Wayne, Ind.

Said building will be required to be enclosed by the 1st day of December, A. D. 1879.

All proposals must be directed to the

chairman of the building committee, and

must be accompanied by a bond in the

sum of \$3,000.00, conditioned that the

bidder or bidders will give a good and

factory bond if awarded the contract, and

the sufficiency of such preliminary bond

must be certified to by the clerk of the

court of the county or counties where

the principal and sureties reside. No bid

will be considered unless accompanied by

such bond.

The building committee reserves the

right to reject any or all bids.

Full information can be had by application

to any of the undersigned or to Wm.

Lyne, Secretary of the Association.

Escaped From a Constable.

Constable Westrum went to the

Old's factory this afternoon with a

warrant for the arrest of Wm. O'Neil,

who was wanted at Justice Ryan's

office to answer to the charge of

assault and battery.

When O'Neil, who was on the third

floor, caught sight of the officer, he

ran to an open door, where a rope

was suspended from the top of the

building to the ground, used for

hoisting purposes, and seizing the

rope with both hands he slid to the

ground with great rapidity. Wes

trumb declined to follow the example

set him, and his prospective prisoner

escaped. He left his coat behind, and

has not been seen since.

SHOCKING CASE IN BALTIMORE.

A Young Married Woman Accused

of Enticing a Girl of Fifteen to her

Room.

Baltimore, May 14.—Mrs. Phoebe

Small, a resident of the west end, is

held for examination to-morrow, at

the Western police station, on the

serious allegation of enticing Ida Col

lett, not quite fifteen years of age,

from her home for immoral purposes.

The case has excited much interest, as

the parties involved have hitherto

borne excellent characters. Mrs.

Small is a handsome woman of twen

ty-five. She is a brunette, rather tall,

graceful, and of fine physique.

Her husband, a well-known citizen,

is not in Baltimore, having left re

cently on a business tour. Mrs. Col

lett was a neighbor of Mrs. Small, and

her daughter Ida, a well-grown and

pretty girl, was a frequent visitor at

the latter's residence during Mr. S's

absence. Recently Mrs. Collett's sus

picious were excited, and upon an in

vestigation she discovered that her

daughter was *enticed*, and that an at

tempt at malpractice had been made.

Mrs. Small denies having any knowl

edge of the girl's intimacy with

men in her house, but says that she

introduced her to a Dr. Pierce, a

friend of hers, who was an occasional

visitor there, but was not aware that

he paid her any further attention.

The girl accuses Dr. Pierce of accomp

lishing her ruin, and that Mrs. Small

accompanied her to a house of ques

tionable character, introduced her to

a gentleman there, and then withdrew.

Mrs. Small will have a hearing to

morrow.

How They Get Ready for Dinner.

"My dear," said Miss Clara Morris

to Mr. Clara Morris, at the Palmer

House the other day, "are you quite

ready for dinner?"

"A fully quite, my love."

"Have you laid the paste diamond

for the chambermaid to steal?"

"Yes, duckey."

"And written the usual note to the

chief of police ready for mailing?"

"Everything regular, my pet."

"And ordered a nice gentle horse to

Escaped From a Constable.

Constable Westrum went to the

Old's factory this afternoon with a

warrant for the arrest of Wm. O'Neil,

who was wanted at Justice Ryan's

office to answer to the charge of

assault and battery.

When O'Neil, who was on the third

floor, caught sight of the officer, he

ran to an open door, where a rope

was suspended from the top of the

building to the ground, used for

hoisting purposes, and seizing the

rope with both hands he slid to the

ground with great rapidity. Wes

trumb declined to follow the example

set him, and his prospective prisoner

escaped. He left his coat behind, and

has not been seen since.
